UNIWARE

UNIWARE

Efficient Software, Exceptional Service...

ABOUT US

Uniware, an Australian company with national support, is a leading ERP and IT services provider. Founded in 1979, we supply small to medium enterprises with Accounting, Distribution, Manufacturing and Service Solutions, delivering successful implementations, enhancing business processes and profitability.

AusVantage - our flagship product combines proven product development and industry knowledge resulting in a true end- to-end ERP solution. With our supporting IT services and optional subscription pricing model AusVantage is delivered to meet budgetary needs with reduced exposure to total IT costs. Our clients benefiting from a single point of contact gain significant advantage in today's competitive market.

Committed to continuing enhancement of business processes and delivery of exceptional IT services our customers are assured of solutions to meet the needs of today and the challenges of tomorrow.

WHAT WE DO

Uniware is a single IT source of complete integrated solutions. Providing implementation and support across our entire solution stack, we respond to any IT issues or act as your own IT department. Our depth of skills ensures that our customers achieve agility, stability and trust in their IT systems.

VALUE

"Uniware provides SME's in the Supply chain, Manufacturing and Services sectors with ERP solutions to manage business processes. With added value services such as IT infrastructure, Web Services and Ecommerce, Uniware is an end to end IT source satisfying our clients needs to enhance enterprise productivity, mitigate commercial risk and reduce capital expenditure."

PEOPLE

Our leading edge technology and technical proficiency is due to the efforts of our most important asset- our employees. We are privileged to have a cohesive group of individuals who exemplify professionalism and share our vision. This is how we provide customers with efficient IT solutions that are cost effective and enhance their business processes. We have support staff located in Melbourne, Perth and Sydney.

Hardware	**Building Supplies**	**Hire/Services Mgmt**

TESTIMONIALS

"We have a fairly dynamic operation, with over 23,000 product lines and in excess of 500 orders a day and until recently, a headache of a whole lot of paperwork. The difference has been that Uniware's bar-coding has enabled us to make a quantum leap to a paperless system"

Brian Oakley (Managing Director) - Lyppard Australia

The software drives our business. As a sales focussed company, the IT advice and solutions from Uniware help drive our growth. The personalised support from Uniware is the best I've ever experienced."

Bakels Lesaffre Yeast (Financial Controller) - Fermex

"Before AusVantage CRM and ClearConnect we had no way of knowing how much time our sales reps were spending creating lighting designs that were never going to be converted into sales. Now with AusVantage we can easily ascertain which customers are integral to our business and which are non profitable customers and our reps can prioritise their time accordingly. AusVantage time tracking tool has had a direct positive impact on overall company profitability."

Richard Langdon (Managing Director) Advanced Lighting Technologies

UNIWARE SOLUTIONS

Uniware's authored and owned portfolio of integrated IT solutions include;

AusVantage - our flagship product is an integrated Business Management System catering for accounting, supply chain, manufacturing, ecommerce, payroll, hire, service management, CRM and E-Commerce functions.

Clear Connect - an E-commerce gateway fully integrated with our AusVantage software solution. A B2B (Business to Business) and/or B2C (Business to Consumer) solution for transactional or collaborative use.

Uniware members include Xceed, OzISP and Just-IT:

Xceed - our Web development studio offering more than web design. Services include Web Application development, Content Management Systems, Search Engine Optimisation, E-commerce and E-marketing.

OzISP - our Internet Service provider offering fast & reliable Internet Access, accessible from anywhere in Australia, with simple no-fuss internet plans and site hosting designed to suit your needs.

Just-IT - specialises in providing IT solutions and services for Small to Medium enterprises. From servers and desktops to VoIP telephony, networking or backup, Just-IT has a product or solution to fit.
